

Fact Sheet: Sierra Nevada Conservancy
www.sierranevada.ca.gov

The Sierra Nevada Conservancy (SNC) is a California state agency created by bi-partisan legislation (AB 2600) and signed into law in 2004. The SNC was created with the understanding that the environmental, economic and social well-being of the Sierra Nevada and its communities are closely linked and that the Region and the State of California would benefit from an organization providing a strategic direction. The SNC Region, made up of all or part of 22 counties covering over 25 million acres, is one of the most significant natural and biologically diverse regions in the world. The Sierra Nevada constitutes about 25 percent of California's land area and is the state's principal watershed, supplying more than 60 percent of the developed water supply to residents, agriculture, and other businesses/industries across the state.

Our Vision

The magnificent Sierra Nevada Region enjoys outstanding environmental, economic and social health with vibrant communities and landscapes sustained for future generations.

Our Mission

Sierra Nevada Conservancy initiates, encourages, and supports efforts that improve the environmental, economic and social well-being of the Sierra Nevada Region, its communities and the citizens of California.

Program

The SNC supports the Sierra Nevada Region by providing funding for local projects and offering technical assistance and other support for collaborative projects in partnership with local government, nonprofit organizations and Tribal entities. Activities supported contribute to the following program objectives:

- Provide increased opportunity for tourism and recreation in the Region;
- Protect, conserve and restore the Region's physical, cultural, archaeological, historical and living resources;
- Aid in the preservation of working landscapes;
- Reduce the risk of natural disasters, such as wildfire;
- Protect and improve water and air quality;
- Assist the regional economy; and
- Enhance public use and enjoyment of lands owned by the public.

Financing

Financing for the implementation of the SNC's programs comes from the California Environmental License Plate Fund and Proposition 84, The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coast Protection Bond Act, was approved by voters in 2006. The SNC was allocated a total of \$54 million of Proposition 84 funds for grant distribution and necessary administration of the grants. As of March 2013, the SNC has awarded over \$50 million dollars to 296 projects throughout the Sierra Nevada.
